

Pradeep Jagtap

Principal Technical Support
Engineer

PROFILE SUMMARY

With a commitment to delivering world-class technical support, I engage with Red Hat enterprise customers globally on a 24x7 basis, requiring periodic shift work. My role involves diagnosing and troubleshooting technical issues, and developing innovative solutions to exceed customer expectations. I aim to foster strong relationships with in-house engineers and developers to drive creative solutions and enhance customer satisfaction. Additionally, I actively collaborate on customer cases, providing mentorship and coaching to team members. Contributing to the global Red Hat knowledge management system and organizational initiatives further demonstrate my dedication to driving a superior customer experience.

HONORS & AWARDS

General H. Hugh Shelton Chairman's Award

Issued by Red Hat · Jan 2024

The General H. Hugh Shelton Chairman's Award recognizes the exceptional work Red Hatters do around the world. The award celebrates associates who exemplify our core values, create a positive customer experience, promote collaboration, showcase open management, and demonstrate expertise in their field. The Chairman's Award is a peer-nominated program, which gives all Red Hatters the opportunity to recognize the incredible talent and efforts of their colleagues.

Chairman's Award winners are true Red Hatters. They're role models. They work hard to do what's right for our customers and to make a tangible impact on our business and culture. They live the Open Management Practices. They are technical or functional experts. They are the walking, talking embodiment of Red Hat's values.

The award is named in honor of Red Hat's former Chairman of the Board, retired U.S. Army General Shelton, who served as Chairman for 7 years and as a director for 14.

RHEL 9 Readiness Challenge Winner
